EXPERIENCE OVERVIEW

Safari Milieu de Gamme 5 Jours Lac Natron & Serengeti

Aventure hors des sentiers battus au Lac Natron puis safari classique au Serengeti.

This unique 5-day safari combines the remote, otherworldly landscapes of Lake Natron with the classic wildlife of the Serengeti. Lake Natron is one of East Africa's most dramatic landscapes — a crimson alkaline lake at the foot of the active volcano Ol Doinyo Lengai, and the only breeding ground for millions of lesser flamingos.

From Lake Natron, travel through the remote northern Serengeti — an area few tourists reach — before joining the main Serengeti plains for Big Five game drives. This route offers landscapes and experiences that most safari-goers never see.

Perfect for adventurous travelers who want something beyond the standard circuit while still enjoying world-class wildlife viewing in the Serengeti.
